Work experience

UX/UI designer - Itirra
Feb 2023 - Present

As a designer, I developed interface designs for mobile applications, websites. Also worked with builders such as Weblium and WordPress.

UX/UI designer - Freelance(Self employed)
Dec 2020 - Feb 2023

As a UX/UI designer, my contributions included designing and refining the user interface, creating wireframes and prototypes, conduct user research to gather insights and understand user needs, behaviors, and pain points. Analyze data and feedback to inform design decisions.

3d artist - Freelance(Self employed)
Dec 2019 - Dec 2020

Working as a freelancer allowed me to work with different design companies on interesting projects.

Interior designer and 3d artist - SINATA
Sep 2017 - Dec 2019

After 4 years working as an exterior designer and making visualizations, based on ideas of architects, I wanted to focus more on creativity part and Sinata is a company where I was able to fully create interiors and visualizations.

3d artist - Ravelin 3D
Sep 2013 - Sep 2017

As an exterior designer worked with big projects, made visualization of residential complexes for developer companies in France, Switzerland, USA, Australia, etc.
